IT Governance Ltd

Technical Cyber Assurance Service (TCAS)

G Cloud 9 Pricing

Protect • Comply • Thrive

1. Technical Cyber Assurance Service Overview

The IT Governance Ltd Technical Cyber Assurance Service (TCAS) is designed to assist organisations in **improving their security posture across their cloud networks, systems and applications**. This comprehensive, end-to-end solution provides independent advice on the selection, design, implementation, configuration, management and testing of secure cloud network architectures and supporting functions.

2. Technical Cyber Assurance Service Pricing

Service	Typical Consultancy Delivery Milestones	Pricing
Technical Cyber Assurance Service (TCAS)	Identification of current and future threats to existing IT infrastructure	£1,000.00 per day
	Designing effective mitigation strategies to meet current and future threats	Same as above
	Selecting appropriate security products, components and technologies to mitigate relevant threats	Same as above
	Implementation and configuration of core security technologies	Same as above
	Alignment with industry best practice, architectural frameworks, standards and protocols	Same as above
	Assurance and testing	Same as above
	Designing, developing and implementing documented processes for maintaining the integrity and security of a system or solution through its full life cycle	Same as above

Full project pricing is dependent on the size and complexity of the organisation and the level of assistance required.
